### Cabin Window

Available for: GV, G350, G450  
& G550 Series Aircraft

### Part Number

**LA1159SCCE500-023**

Outer-Laminated Pane Assy

**LA1159CE50001-ALL**

(Window Assembly 6th)

### WINDOW ASSEMBLY PART NUMBER "1159CE50001-ALL" FOR THE GV,G350,G450 & G550

The cabin windows for the GV, G350, G450 and G550 consist of a glass tempered "heated" inner pane and laminated acrylic outer pane assembly. These two windows are mounted into an aluminium frame and sealed for a water tight assembly. Our repair program will separate the assembly and inspect the window panes and repair and/or replace the outer laminated pane assembly with a new Lee Aerospace FAA PMA approved replacement. The windows may be removed by following the current OEM Aircraft Maintenance Manual instructions and we will offer this outer laminated assembly for sale if you wish to replace yourself. The complete window assembly will also be offered in our overhauled / exchange program and are ready to install in your aircraft.

## FAA/EASA REPAIR STATION

### SERVICES

Operating a full service manufacturing and repair facility since 1989 in the heart of the United States. Our FAA/EASA Certified Repair Station Technicians are strategically located throughout the U.S., enabling quick response time, meeting customer demands worldwide.

As the industry leader in transparencies, Lee Aerospace's qualified and FAA certified technicians will inspect your aircraft windshields and cabin windows, providing an expert, detailed evaluation on the condition of your windows.

Our Mobile Repair Team will polish, or install new replacement windshields and windows on-site, using factory authorized equipment. Every repair/installation goes through a series of quality checks, ensuring compliance with the aircraft manufacturer, air carrier and other applicable specifications.
